

DOWIE PLANS A GRAND SURPRISE

Will Return To Zion City Monday Night To
Perform A Miracle For Faithful.

HIS DEACONS WILL SURPRISE HIM

Have Already Made All Plans To Drive Him Out Of The
City He Founded And The Sect He
Created Forever.

[BY ASSOCIATED PRESS.]

Chicago, April 6.—The Daily News will say today: "John A. Alexander Dowie has announced in a private telegram to one of his deacons that he will return to Zion City late Monday night and perform a miracle. He promises among other things to bring to the 'Faithful of Zion' ten million dollars in gold and several scrolls of parchment upon which are written the five books of Moses."

The Plan for a Harem

It is said that seven of the most attractive women of Zion had been selected by John Alexander Dowie, to share conjugal bliss with him as soon as he could carry into effect his plan for establishing polygamy in Zion. The name of Ruth Hoffer, the beautiful and rich young Swiss woman whom he brought home with him after one of his globe-trotting tours, was at the head of the list.

This startling allegation and much else of even a more scandalous nature was brought out at a five-hour secret meeting of all the church officers at Zion Thursday. As a result of the meeting, and in view of Dowie's failure to heed the warnings and advice that he quietly submit to de-throne the threat of the overseers to expose publicly the character and career of Dowie in the past three years will be carried out on Sunday, when the facts will be given to the great congregation in the tabernacle.

Details in connection with Dowie's alleged relationship with Ruth Hoffer were laid before the big gathering of officers. Proof was presented which left no doubt in their minds as to Dowie's intention to inaugurate polygamy, and evidence was given in support of the charges against him of wanton misuse of Zion's funds.

Overseers Are Indorsed

Nearly every officer of the church spoke at the meeting, among them Mrs. Jane Dowie, who told of her husband's conduct toward her in the past two years. At the close, when the officers were called upon to decide by vote whether the course adopted by the overseers should be carried out, only one man was lacking to make it unanimous and he refused to further.

time to consider the matter.

With the close of the meeting, it is said, the last vestige of sympathy for Dowie had disappeared, and many of the officers who had been lukewarm in their loyalty to the new administration, and secretly ready to rally again under Dowie's banner should opportunity permit, had been won to the support of Voliva.

Thus while Dowie was making his final preparations to leave the City of Mexico at 9 o'clock Thursday night, plans had been perfected in Zion City to carry out the program of exposure which the new rulers are convinced will make the "first apostle's" name a stench in the nostrils of Christianity all the world over.

What Dowie Will Do

It is now, the leaders declare, a fight to a finish. There will be no turning back. There are still many who profess to believe that Dowie will yet alter his intention of returning to the scene of his victories to face the scandals that await him, but those who know the desperate and indomitable determination of the man say he will face the consequences no matter what they may be.

Dowie is expected here Tuesday, and the plans of the overseers regarding his arrival are hidden with the utmost secrecy. It is reported that a coup has been arranged that will prevent him, at least temporarily, from getting nearer to Zion than Chicago, and there are other reports that he will be jailed immediately upon reaching Zion.

Denial by First Apostle

Before leaving Mexico City for Chicago, Dowie talked freely about Zion and the charges against him. According to his side of the story, he is a much wronged man, and instead of his owing Zion anything, that community is indebted to him to the extent of thousands of dollars. Dowie will stop one day for rest at San Antonio, and will then proceed northward.

He expressed himself confident of the loyalty and support of the great mass of people in Zion, and says he has been flooded with messages of assurance of sympathy and financial aid.

HUNGARY CRISIS IS AVERTED NOW BY THE EMPEROR

Trouble Between Austria and Hungary Will Now Be Settled.

[BY ASSOCIATED PRESS.]

Vienna, April 6.—Peace between the Crown and the Hungarians has been concluded and the parliamentary crisis is over. Premier Pejorvary has resigned, and Alexander Wokierle has been appointed premier with a mandate to form a conciliatory cabinet for Hungary.

NEWS OF THE STATE IN BRIEF

John P. Clancy has sold his interest in the big coal yards of J. F. Clancy & Co., located on the North Racine river front, to J. W. Dempsey of Manitowish, Wis., son of a millionaire lumberman of that city.

Anton Rivers of the village of Fairwater was arrested at Princeton Wednesday night on the charge of assault upon Frank Tates. The altercation between the two men arose over election and in the fight Tates was seriously cut about the neck and face. He is now in a serious condition.

The 4-year-old daughter of Mr. and Mrs. John J. Johnson of Caledonia entered a barn and walked up behind two horses. The animals became frightened, kicking the child in the face, breaking her jaw and rendering her unconscious. The father at once attempted to rescue the child and was also kicked, two ribs being fractured and internal injuries sustained.

City Clerk Frank A. Bartlett, former County Clerk Arthur Schuessler, and John Manderscheid, former superintendent of the Fond du Lac insane asylum and poor farm, who were arrested on Wednesday on indictments returned by the grand jury charging embezzlement, have been released from the custody of the officers, bail being furnished.

Elaborate plans are being made by the local chapter of the Daughters of the American Revolution for a rare celebration of the fourth of July in Fond du Lac. There will be a monster parade in the morning, picnic dinner at noon, and games in the afternoon. A sham battle between Company E of that city and Company D of Ripon will take place at 5 o'clock, and in the evening there will be a water carnival on Lake Winnebago, near Lakeside park.

SENATOR ELKINS ON THE NEW RATE BILL

Wants the Proposed Measure Stronger Than It Is Now—Says Changes Must Be Made.

[BY ASSOCIATED PRESS.]

Washington, April 6.—Senator Elkins presented his views in the senate today on the railroad rate bill. He said he was in favor of the pending bill, but wanted it made better and stronger. The house bill did not go far enough. He expressed an opinion that if it was adopted it would prove a general disappointment. He declared he was in hearty accord with the President on the rate subject.

VESUVIUS BEGINS A DESTRUCTIVE TIME

Famous Volcano Is Now Sending
Forth Large Streams of Lava
In Two Directions.

[BY ASSOCIATED PRESS.]

Naples, April 6.—The eruption of Mount Vesuvius is now most violent. On the Pompeii side the main stream of lava has divided into two streams, one threatening Ottajano, a community of twenty thousand inhabitants, the other threatening Torre Del Greco, with a population of thirty thousand. The danger is becoming serious and calls for immediate evacuation of Boscoreale, the nearest village to the crater, which has a population of nine thousands, have been issued.

SPARKS FROM THE WIRES

Board of directors of the American mining congress announced the ninth annual convention of the congress will be held in Denver Nov. 13 to 17 next.

John Embury was nominated by the district attorney for the district of Oklahoma.

Minister Sebastian Mier will leave Mexico City Tuesday for Paris, where he will resume his post as representative of that government in France.

Dean N. S. Shaler of the Lawrence Scientific school, Harvard university, who is suffering from pneumonia following an operation for appendicitis, is better.

Dr. William G. Logan, a pioneer physician of Kansas City who retired from practice several years ago, has given his \$75,000 residence in that city to the board of extensions of the Christian church.

SPRING FEVER

TOMORROW IS DAY FOR DEDICATION

Monument to Wisconsin Soldiers Who
Fell at Shiloh Will Be
Unveiled.

[SPECIAL TO THE GAZETTE.]

Pittsburg Landing, Tenn., April 6.—The monument erected on Shiloh battlefield to the memory of the Wisconsin troops who participated in the historic conflict will be dedicated tomorrow, and will be the occasion for a great gathering of the veterans. A large delegation from Wisconsin, headed by Governor Davidson, will be present, together with the representatives of the federal government and the State of Tennessee. The Wisconsin monument is one of extraordinary size and beauty and cost in the neighborhood of \$10,000. It consists of a massive granite base, surmounted by a colossal figure of a wounded soldier, bearing a flag and a woman bending over him tenderly removing the flag from his grasp.

CAMBRIDGE VERSUS OXFORD ON THAMES

Great English Intercollegiate Boat
Race Takes Place Tomorrow—
Cambridge Favorite.

[SPECIAL TO THE GAZETTE.]

London, April 6.—The annual boat race between the crews of Oxford and Cambridge universities, the greatest aquatic event of the year in England, takes place tomorrow over the historic Thames course from Putney to Mortlake. There appears to be a general feeling that the race this year will be a close contest, and as a consequence great public interest is manifested in the event. Both crews took their thousand people, a goodly number belonging to the betting fraternity, turning out to form their final judgments on the performances of the two crews. Cambridge is a slight favorite, though the Oxonians have had the benefit of the supervision of Fletcher White, the celebrated coach, and appear to be in splendid form.

This will be the sixty-second boat race between the two universities. Oxford has been the winner in thirty-two contests and Cambridge in twenty-eight, while the one of 1887 was a dead heat. The start tomorrow will be made between 1 and 2 o'clock. London time, the Thames being at high tide at 1:40.

ANNUAL GATHERING OF SOCIOLOGISTS

Tenth Meeting of American Academy
of Political and Social Science
at Philadelphia.

[SPECIAL TO THE GAZETTE.]

Philadelphia, Pa., April 6.—The tenth annual meeting of the American Academy of Political and Social Science was begun in this city this afternoon. Many distinguished men from all over the country are in attendance, and the sessions promise to be more than usually interesting. The general topic for discussion is "The Improvement of Labor Conditions in the United States." This is divided into two heads, one for each day, today's subject being "The Length of the Working Day on Trade Life." Charles P. Neill, Commissioner of Labor, of Washington, D. C., occupied the chair. Frederick L. Hoffman, statistician of the Prudential Life Insurance Company of America, talked on "The Physical and Medical Aspects of Labor and Industry." Among those who discussed the various phases of trade life were James O'Connell, Dennis A. Hayes and Robert Hunter. Prof. Samuel McCune Lindsay, formerly commissioner of education of Porto Rico, presides this evening, when the topic of discussion is to be "The Settlement of Industrial Conflicts with a Special Reference to the Trade Agreement." The scheduled speakers include Dr. John Graham Brooks of Harvard University, H. E. Vreeland, president of the Metropolitan Street Railway company of New York, Samuel B. Donnelly, secretary of the General Arbitration Board of the New York Trades, George H. Ellis, president of the United Typothetae of America, William B. Prescott, former president of the International Typographical Union, E. E. Clark, grand chief of the Order of Railway Conductors, and A. Beverly Smith, secretary of the Lithographers Union.

D. F. Ryan, held at Rochester, N. Y., for the robbery of the bank of Sedus and murder of the night watchman, has been positively identified.

Evidence closed in the trial of Rev. U. G. Sutherland of New Albany, Ind., charged with killing his wife.

SECOND INTERCOLLEGIATE WRESTLING MATCH IN EAST

[SPECIAL TO THE GAZETTE.]

New York, April 6.—A lively interest is displayed in the second annual intercollegiate wrestling meet, the preliminaries of which take place this evening at the Columbia university gymnasium and the finals tomorrow night. The contestants represent Yale, Pennsylvania, Princeton and Columbia. Yale and Columbia are the favorites, their teams having made the best showing so far this season. The classes are seven in number, and are 115, 125 (special), 135, 145, 175 and heavyweight.

ILLINOIS IN A FUNNY MIX-UP

Primary Law Declared Invalid By The Su-
preme Court..New Law Must Be Passed.

SPECIAL SESSION OF LEGISLATURE

Pet Scheme Of Reformers Is Not Able To Hold Water
When Tested In The Courts---

Queer Situation.

[Special to The Gazette.]

Springfield, Ill., April 6.—The Illinois supreme court pronounced the new primary law unconstitutional Thursday afternoon, and forthwith Governor Deneen issued a call for a special session of the general assembly to convene in Springfield at 10 o'clock next Tuesday morning for the purpose of enacting a new measure that will be free from the flaws that made the other act null and void.

The proclamation of Governor Deneen convokes the lawmakers in the first special session held since 1898, when one was called for the purpose of passing a new primary law and of revising the revenue act and the task that will confront the assembly is the drafting of an act that will not be open to attack as "special legislation"—the main fault that led the supreme bench to overthrow the primary act passed a year ago.

The finding of the supreme justices repudiated the primary law because one section, applied only to Cook county and the remainder to the state at large. In four other features the rejected law will have to be amended, the court also holding unconstitutional the provisions calling for advice from candidates, the delegation of legislative power to county committees and the requirement that legislative candidates come from certain counties. The fourth flaw is one of faulty title.

To Postpone Conventions. While the legislature is forging a new law that will preserve the spirit of the one declared invalid, the right of the voter to select candidates for office by direct vote at the primary elections—and that will contain no invalidating provisions; the political machinery throughout the state will be settled. Simultaneously with the call for a special session, Chairman West of the republican state central committee summoned the members to an emergency meeting to be held at Springfield Saturday morning, when steps will be taken to rescind the call.

Hardly had the supreme bench made public its finding when the men who were most active in promoting the passage of the primary law went to the work of devising amendments that would guarantee a revised act safe passage through the courts. Edward D. Shurtliff of Marengo, speaker of the house, Senator Daniel A. Campbell of Chicago, Senator O. F. Berry of Carthage and other legislative leaders sent word to Governor Deneen that they would meet him in conference at any time he desired. They will gather in Springfield and will discuss and plan revisions that will go before the assembly when it gathers Tuesday.

Complications throughout the state have arisen from the overthrow of the primary act, and the political situation is highly complex. Republicans and democrats were to hold primaries in all counties of the state April 28, under the law for the selection of congressional, legislative and county candidates. These will be postponed by the republicans to a date that may be determined later, when the outcome of the special session becomes evident. As the old law is in force, primaries may be held between May 1 and Sept. 30 by either of the parties.

MINERS ARE READY TO ARBITRATE ALL MATTERS

Operators Are Asked To Allow Judge Gray To
Act In This Capacity On The
Board.

New York, April 6.—A proposal to submit to a board of arbitration the entire controversy between the anthracite operators and miners was made to the operators' committee Thursday by the representatives of the miners. Resumption of work while the board is in session is provided for. The operators gave no answer, but promised to make their reply Monday, and the joint conference was adjourned until that time. It is believed the operators will not agree to the plan.

The miners, although they were expected to present modified demands to the operators relinquishing some of their claims for the sake of procuring a settlement, did not do so, because they could not agree among themselves as to their program. After long sessions of the delegates, at which no conclusion was reached, it was agreed to suggest arbitration.

Suggest Judge Gray for Umpire. In their proposal, which was read to the operators by President John Mitchell of the United Mine Workers, it was provided that the arbitration tribunal be composed of the board of conciliation which was created by the award of the anthracite strike commission in 1903, with Judge George Gray of Delaware or any person he may appoint as chairman and umpire. If the operators accept the proposition and a convention of mine workers approves the plan, the 100,000 men now idle in the anthracite fields will return to work at once.

SOUTHERN UNIVERSITIES DEBATE ON OLD QUESTION

[SPECIAL TO THE GAZETTE.]

Chapel Hill, N. C., April 6.—The debate between the teams of the University of Georgia and the University of North Carolina, takes place here this evening and promises to be one of the most notable events of the college year. The subject selected for the debate is "Resolved, That the present tariff policy in this country should be revised on the line of tariff for revenue only." Georgia has the affirmative and Carolina the negative side of the argument. In the six previous debates the two universities have broken even, so that more than ordinary interest centers in the present contest.

VOTE CERTIFIED BY THE COUNCIL

AT A SHORT SESSION HELD LAST
EVENING.

250 CASES OF SMALL-POX

Fourteen of Diphtheria and Eleven of
Scarlet Fever, Was the Health
Officer's Summary for Year.

Last evening the city council certified the vote of Janesville and the election of those having majorities. The official count was identical with that given in the Gazette Wednesday. Aldermen Jackson and Hager were absent from the session. A resolution offered by the finance committee and passed instructed to draw orders on the treasurer in favor of the inspectors, clerks, and ballot clerks for the amounts due them for services on primary and election days. Chairman Baumann of the sewerage committee presented the report of the street assessment committee on sewers to be constructed in 1906. The same was received and filed. An additional report covering extras was held over by the committee.

Health Officer's Report.
Chairman Fish of the police committee submitted the report of Health Officer T. H. McCarthy, called for by the aldermen at a previous session. The report stated briefly that there had been in the city during the past year: 11 cases of scarlet fever, 14 cases of diphtheria, and 254 cases of smallpox, there being two patients afflicted with the last-named disease in the detention hospital at the present time. Chairman Fish said that the report did not seem to him sufficient in its scope. The state board of health wished to have an account of every case with details showing when, where, and how long each patient was sick, and the city should be in possession of the same data, according to his way of thinking. On his motion the report was received and placed on file.

To Start Stone-Crusher.
Alderman Merritt suggested that it was about time that the stone crusher be gotten into shape for business as considerable of the crushed stone would be wanted in the yards as soon as the ground was dry. He offered a resolution calling on the street assessment committee to procure a competent superintendent and have him go out there and put the plant in shape at once. The same was passed. On motion the meeting was adjourned. The last regular meeting of the old council will be held on April 10.

NEWCOMB DENIES REPORT OF A SUIT

Dowie's Private Secretary Denies The
He Knows of the Janesville
Women Story.

Arthur W. Newcomb, head of the Zion Publishing house and a private secretary of Alexander Dowie, who is now in much trouble, denies the story that two Janesville women are about to sue the leader of the Dowieites for \$40,000. In a telegram to the Gazette, he says:

"Zion City, Ill., April 6.—Know nothing of suit by Janesville women, know no names—Arthur W. Newcomb."

On a recent visit to Janesville Mr. Newcomb said that John Alexander Dowie was still supreme and that Voliva, the present sole head of the church of Zion, was merely a financial manager. Mr. Newcomb spoke interestingly regarding Zion City and the work being accomplished. He said that Dowie was far from well, but that he had every expectation of soon returning to Zion City entirely recovered in health. Evidently the present plan for entirely repudiating Dowie and turning all his property over to the church was not then contemplated. Mr. Newcomb, as head of the printing department of Zion City, is also the press agent for the colony. His dispatch regarding the report that two Janesville women were about to sue the first "apostle" for money loaned him is, doubtless correct. Affairs in Zion City are, however, very chaotic. Dowie left it badly in debt. He had used the money he had raised for the colony to establish his city and his financial matters were in bad shape. Upon his recent illness he gave Deacon Voliva and power of attorney and sent him to rule Zion until he returned. Voliva, however, found matters in a bad financial way and soon after assuming control rumors that Dowie was to be repudiated were circulated. These were denied strongly, but finally the repudiation came and today the founder of the great sect, the builder of Zion City, the first disciple of the church of Zion, is outside the pale of the church, his property is transferred to other men and he is told to keep away or it will be worse for him. Mr. Newcomb is evidently in sympathy with supervisor Voliva for whom he expressed the greatest admiration on his recent visit to this city.

RABBIT RACES ARE TO BE STOPPED NOW

Superintendent of Wisconsin Humane
Society Will Stop Beloit
Sports.

Janesville sports who journeyed to the Line City last Sunday to see the rabbits race for their lives against dogs and had planned another day's enjoyment this coming Sunday, are to be disappointed. Superintendent Zachariah Clayton of the Wisconsin Humane society with headquarters in Milwaukee has made plans to prevent a recurrence of the pastime. In He has not as yet notified Sheriff Cochran of his intentions, but will probably be on hand Sunday to prevent a recurrence of the pastime. In commenting on the situation at Beloit

the Milwaukee papers say the affair has been advertised in that city as being something entirely new. It is said the races are much more exciting than fox hunts. The management of the proposed entertainment state that they have imported a large number of the celebrated jackrabbits from the plains of western Kansas and eastern Colorado. These rabbits will be released from cages and the park and bounds and territories are scheduled to chase them about the enclosure. It is claimed that the rabbit is the fleetest of animals and that the race will be more exciting than those in which foxes or rats are pursued by dogs. "If the management attempts to hold this affair I shall go to Beloit on Sunday," said Mr. Clayton. "I have received a number of appeals from a number of prominent Beloit who are opposed to affairs of that kind."

HANSON FURNITURE FACTORY EXPANDING

New Two-Story 50 by 80 Foot Addition
and Another Large Dry-
Kiln Are Being Built.

Prosperity continues to smile on the Hanson Furniture factory. Work has already commenced on a 50x80-foot addition, which is to be two stories high with a basement and which is to provide the additional space needed for machinery and the cabinet department. Another dry kiln, measuring 18 1/2 by 32 1/2, is also to be built and this, together with the three others, is to be equipped with steam. These four modern steam kilns will increase the drying capacity of the factory 100 per cent, according to Supt. Henry M. Hanson, and the addition first mentioned will enlarge the capacity for other work 50 per cent. "For two years it has been impossible for us to fill all our orders," he said this morning.

Mrs. Hattie Miller.
Afton, April 6.—Mrs. Hattie Antisdel Miller was born in the town of Rock, Feb. 23, 1858, and died at her home in the village of Afton April 5, aged 48 years, 1 month and 7 days. Deceased was a daughter of the late C. G. Antisdel and in this family relation is survived by her aged mother and two brothers, A. W. Antisdel of Postoria, Iowa, and G. C. Antisdel of Afton. On Feb. 25, 1880, she was united in marriage with William J. Miller and they have made their home in this town since. Of her own immediate family she leaves her husband and four sons, Frank, Floyd, Dale, and Dale, one son having died in infancy. Early in life Mrs. Miller united with the Afton Baptist church and has always lived a consistent Christian, quiet in way and firm in faith. She was essentially a home-loving woman, true to her duties as wife and mother and unselfish in her devotion to her family. Two years ago last winter Mrs. Miller sought medical advice regarding a troublesome growth that had appeared in her right breast and after a thorough examination was told that she had a cancer. It was decided at once that an operation was necessary and on Jan. 2, 1904, this was performed at her home in Afton. The beneficial effects of the operation were merely of a temporary nature, however, and subsequently Mrs. Miller underwent three other operations in a Chicago hospital, but the relief afforded was not of long duration and she was finally told that surgical skill had done all that was possible for her. She did not give up, however, but heroically decided to take the X-ray treatment and at first with favorable results. Then, when it became certain that this treatment had only checked the ravages of disease for a time and that all that medical and surgical skill could do had been unavailing, she gave up the unequal struggle and calmly resigned to the inevitable. For six weary weeks she had kept her bed, racked with pain and longing for release from her suffering. And the end came peacefully. Surrounded by her sorrowing family and conscious to the last, she quietly fell asleep to awaken with the glories of eternity to lighten her eyes and on her placid brow the "breath of the eternal morning."

CANDIDATES TO FILE ELECTION EXPENSES

District Attorney May Be Punished by
\$500 Fine if He Fails to
Prosecute Delinquents.

Candidates both at the primaries and election who do not file accounts of their election expenses, this year will be running a serious risk. Hereafter the law has been dead-letter to a certain extent, but new provisions were incorporated at the last session of the legislature, which make it the duty of city clerks to report all delinquents to the district attorney and the latter officer, if he fails to prosecute, is subject to the same \$25 to \$500 fine which is imposed on the aspirants for office who disregard the law. There seems to be no loophole of escape. The expense accounts must be filed within thirty days after election. They must detail each item in excess of \$5 in money expended or promised either by the candidate or by anyone in his behalf, to the best of his knowledge. City Clerk Badger has already mailed the blanks for this purpose to all who bid for or were tendered the suffrage of the people both at the primaries and at the election, excepting those who were nominated against their wishes and formally declined to run. This full and get of sworn affidavits, when they are all turned in, promises to furnish interesting reading matter.

CONDUCTOR FINDS \$9,000 IN CAR

Money Is Restored to Absent-Minded
Owner to Pay Employees.
Asthoria, Ohio, April 6.—Lake Shore Conductor William R. Miles of Oil City, Pa., found a valise in one of the coaches of his train containing \$9,000 in currency. There was no clew to ownership. Later Miles learned that a valise containing that sum of money had been lost by William C. Juman of Leon, Ohio, who had drawn the money from the bank intending to pay a large force of men employed by him. He had left the train at Leon and forgotten the valise. The money was restored at once.

TO DEFEND NATION.

President to Resent Wanton Attacks by Magazine Writers.

Washington, April 6.—President Roosevelt is going to chastise the magazine writers of contemporary literature who have been heaping shame on certain branches of the American government and shattering some of the idols of American statesmanship. It will be done in the Decoration day address which the president will deliver at Norfolk, Va., before the Army and Navy union. The address will be sure to cause a sensation throughout the country, as it already has among a limited gathering of public men, newspaper correspondents and professional life of the country, who heard it only a few weeks ago.

The president's decision to speak his mind publicly on the question was made at the urgent request of several persons who were guests at Speaker Cannon's recent notable dinner in honor of the Gridiron club. "The Man With the Muck Rake," with Bunyan's prototype for a model, was the topic chosen by the head of the nation on that occasion, but as the Gridiron club rules against the reporting of speeches made around its banquet board were in force, the sensational flying administered to a certain class of writers was not exploited to the world. Now, however, the ban of secrecy was removed in a measure by the official announcement that the president would revise and repeat the address on Memorial day. It is the president's belief that men who wantonly, as he declares, drag the public men of the nation through the mire, in their attempts to supply sensations for their readers are public enemies. He declares the eternal seeking after corruption and the overlooking of the things that are good. He thinks much lying has been indulged in, and he is going to turn on the accusers. Washington has been the Mecca this winter for many of the so-called sensational writers for the magazines, and congress and the senate in particular, have been writhing under some of the scathing arraignments. There has been some talk that the senate might take some action in its own defense. It is a noteworthy fact in connection with the matter that several writers in question apparently have had close relations with the White House at one time and another.

Profiting by Other's Wisdom.

Napoleon said that the wisest man was the man who knew best how to make the most of the wisdom of others. It seems to be the last thing some think of. They prefer "to find things out for themselves," and they do; but it is wonderful how little, and at what a cost!

Red carnations—Where anger is present are inflaming; otherwise, neutral.

Tuberose—Makes for melancholy and morbid sensitiveness.—St. Louis Globe-Democrat.

Hard Formula for Happiness.

A deep thinker once evolved the definition of fun as what one is looking for, another made it to be distinctly understood that the joy of living consists not in reaching what one is looking for, but in keeping on looking for it. According to these two it would be very easy to be happy, but who would like to follow a formula like that?

A Real Boston Definition.

For instance, there is the word "skiddoo." We don't know where it originated, or the circumstances that brought it into life, but we do know we hear it everywhere used by the young folks when they wish to remind one that his presence is in demand at that minute in some other spot.—Boston Transcript.

Varying Weight of Timber.

The weight of most timber varies according to the part of the tree from which it is cut; as a general rule, that cut from the top of a tree may be taken as about three to five per cent lighter than that cut from the butt.

Money in the World.

The total stock of money in gold, silver and uncovered paper in the whole world amounts, in round figures, to \$12,000,000,000. In the United States the total stock of money amounts to about \$2,000,000,000.

SORES AND ULCERS

TROUBLESOME-OFFENSIVE-DANGEROUS

Nothing is more discouraging than to have an unhealthy sore or ulcer resist one treatment after another, sometimes scabbing over and apparently getting well, then returning with renewed energy and becoming worse than before. Sores and ulcers are not due to outside causes; if they were, salves, plasters, lotions, etc., would cure them. They are kept up by a diseased and polluted condition of the blood brought on by the absorption of refuse and waste matters of the body into this vital fluid. These accumulations find their way into the blood, usually because of an inactive and sluggish condition of the system. Nature intends that they shall be carried off through the usual channels of waste, but the different members failing to perform their duties properly leave the matter to sour and ferment. The blood then, in its effort to keep the system healthy, absorbs these poisons and at the first bruise, cut, or wound the sore is formed, and the constant drainage of foul matter through it keeps the place open and irritated so it cannot heal. Another cause for old sores and ulcers is the poisoning or weakening of the blood from the remains of some constitutional trouble or the effects of a long spell of sickness. S. S. S. begins at the fountain-head and drives out all poisonous matter and germs, and makes a lasting cure. As soon as the system gets under the influence of S. S. S. the inflammation gradually leaves, the flesh takes on a healthy color, and soon the place is permanently healed. Book on sores and ulcers and any medical advice without charge.

for practically the same cost, in addition to its comforts and safety.

Do your plants wither up and die?
Do your rooms become filled with foul air?
Do your gas mantles and shades break?
Do your kerosene lamps and chimneys break?
Do your ceilings, walls and lace curtains become discolored and blackened from the soot thrown off by gas burners and kerosene lamps, necessitating constant re-newing?

HAVE YOU EVER FIGURED

what these troubles cost you? If not, do so and you will be surprised to learn that they amount to considerable.

This Expense Can Be Saved by Using ELECTRIC LIGHT.

DAVIDSON CAMPAIGN ASSUMES SIZE TODAY

Lenroot's Followers Have Apparently Been Lost Sight of in the Struggle.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., April 6.—Governor James O. Davidson is assuming so much strength as a candidate for the nomination at the primaries next September as to make his political friends jubilant and to alarm the followers of Speaker I. L. Lenroot of Superior. The speaker is the candidate for governor selected and being pushed by Senator La Follette and two months ago was thought to be the easy leader in the Wisconsin republican gubernatorial contest; but the situation has changed decidedly.

One evidence of the apprehension of the Lenroot supporters is the information that Senator La Follette has been summoned to come from Washington for a conference with his leaders in the state upon the means to be employed to head off the tide that seems to have set in in favor of the nomination of Governor Davidson.

The senator is unable to come at once, but it is said that he will make a flying trip to Chicago and will meet his leaders there by appointment in two or three weeks, when a Saturday and Sunday will be devoted to discussing the situation and planning the aggressive measures of the Lenroot campaign. Pledges of support are coming in bunches to Governor Davidson from all parts of the state. These pledges embrace men who have been influential in the stalwart faction, but none of them has made his proffer of support in an ostentatious manner. It is said that one of the means to be employed by the Lenroot side to kill off Governor Davidson will be to have placed upon him the charge that he is "mutualizing" with the stalwarts. Such a scheme as this was successfully worked two years ago to stop S. A. Cook, the "harmony" candidate. It is said by the Davidson people that such a plan will not work against him as his loyalty to the principles of the "halfbreeds" has been too well established.

Wants New National Hymn.

Washington, April 6.—"The Star-Spangled Banner" cannot be sung satisfactorily, and "America" is set to an English air, consequently the United States should offer a prize to composers and make an effort to obtain a satisfactory national hymn. Such was the argument advanced by Julius I. Lyon, of New York, who called on Secretary Bonaparte. Mr. Bonaparte said he did not believe a national song could be popular unless it was connected with an event in history of great importance.

Exonerates Senators.

Trenton, N. J., April 6.—The charges against Senators Shinn and Martens, accused of demanding money for the suppression of two pawnbroker bills, are not sustained.

Would Reduce Sugar Duty.

Berlin, April 6.—The reichstag adopted the proposal to request the government to reduce the duty of sugar from 14 marks to 10 marks per metric hundred weight.

The Water Still Rising—Danger Threatened.

The water in the river has been gradually rising since yesterday, until now it threatens to break through the race and do serious damage. This certainly must be the result if the volume of water increases much more.

Workmen have been employed all day in strengthening the threatened points, but fears are entertained that these efforts will prove unavailing to keep the water within the proper bounds. Should it break through, the most serious results must be apprehended. Arrangements have been made to give the alarms by ringing the fire bells, and in case it becomes necessary to hope every able-bodied man will repair at once to the point threatened and render what assistance he can in the emergency.

A rumor was current on the streets yesterday that Horicon dam had gone out, but we learn it is entirely without foundation.

The Milwaukee street bridge is so far repaired as to admit of the passage of teams.

yesterday with the mails from that section and returned today with a wagon laden with the same freight. Railroad communication has been entirely cut off since the great storm.

Several wealthy and prominent colored citizens of Boston, who have been refused admission to the Boston Theatre after purchasing tickets, are going to bring the matter before the courts and see what their legal rights in such cases are.

Setting Up Old Scores.—The Fort Byron (North Cayuga, N. Y.) Times has the following modestly written paragraph:

"A son of Brigham Young, Esq., formerly a resident of our village, was in town last week, looking up sundry old debts of his father's which he is anxious to liquidate with the interest which had accrued during thirty-five years. It seems that Mr. Young left this place in rather cramped circumstances and went to the far west, where he has prospered in business so that he is able to pay up old scores. He is well known in the West as an extensive and keen business man."

John W. Foster, former secretary of state in New York, will preside at the twelfth annual meeting of the Lake Mohonk conference on international arbitration May 30-June 1.

Letter to Mr. Frank Finch, Janes-
ville, Wis.

Dear Sir: You know something about
the value of paint around a
farm. It's a sign of thrift as well as
a protection to property. The better
the paint, the greater the thrift and
the protection.
A farmer near Whitewater, Wis.,
wanted to paint his house; and it
required \$18.75 worth of lead and oil
to do it. Our agent, G. W. Spierbeck,
sold him Devco lead-and-zinc paint;
ten gallons cost him \$16.00 and he had
a gallon left; net cost: \$14.40 for Dev-
coe paint against \$18.75 for lead and
oil.
He was so pleased with the job and
the saving that he told all his neigh-
bors about it; and they have since
painted with Devco lead-and-zinc
paint.
You see what thrift and protection
mean when they're Devco.

Yours truly

ALLIGATORS ARE STILL NUMEROUS

FLORIDA SHORES ARE FAVORITE
HAUNTS.

HUNTED WITH SEARCHLIGHT

May Be Caught on Set Line with
Huge Hook, Baited with
Live Fish.

The alligator of Florida, while not
so numerous as in former years, is
by no means extinct, and the party
who spent the winter at Cleveland,
on the west coast, frequently saw
these salt water reptiles as they basked
in the sun on the shores of the
saw grass islands. They are not diffi-
cult to locate, as they occupy the
same shallow day after day unless
disturbed when they slip off into the
water to reappear the next day in the
same locality.

Southern Florida is covered with
numerous surface water ponds, some
of them assuming the proportion of
small lakes. The alligator migrates
from one pond to another and is
sometimes met in the woods while en-
route. He always gets out of the way
in a hurry and sets a pace that keeps
a good horse busy.

They are sometimes hunted in the
night and the sport is very exciting.
Two or three of the Cleveland party
went out one night some two weeks
ago, equipped with a bicycle lamp at-
tached to the bow of the boat, just
back of the lamp was a man with a
rifle. The boat was pulled quickly
through the bay while a sharp look-
out was kept up for the eye of the
alligator which sparkles in the dark-
ness like the eye of a cat.

Presently an eye was discovered off
to the left some 50 yards away and
the boat was turned in that direction.
The alligator was so fascinated by the
light that he lay motionless on the
surface until the boat was within a
few feet of him, when the crack of a
rifle, poorly aimed in the dark, dis-
turbed him and he sank from sight.
A little later another was discovered
with similar results.

But the party was not discouraged
and the next day started out for a
daylight hunt. At Hunters' Pass,
three miles up the river, a large allig-
ator was discovered basking in the
sunshine. He disappeared from sight
as soon as discovered but the party
knew that he would remain in the
neighborhood, so they returned to the
house and prepared to capture him
on a set line.

A chain, three or four feet long,
with a hook the size of a meat hook,
was attached to a rope 75 feet long,
the size of a clothes line. The hook
was baited with a channel catfish
weighing three or four pounds, and
returning to the pass the line was tied
to a tree and the bait thrown out in
the stream.

The next morning as the party ap-
proached the spot in a launch, there
was a great commotion. The allig-
ator was hooked all right and in his
efforts to get away had been out on
the shore and torn things up gener-
ally.

As the boat approached he disap-
peared in the water. The men were
landed nearby and the launch sent
back to the house for Miss Cathie
Caughran to come up with her rifle
and shoot the reptile. Miss Caugh-
ran's father was a member of the
party and he wanted his daughter to
kill her first alligator.

An hour later she arrived on the
scene, the alligator thoroughly sub-
dued by this time, was pulled in near
shore where a couple of rifle balls
soon dispatched him. He was taken
to the house and photographed and
his skin taken off to be preserved as
a trophy of Miss Cathie's first allig-
ator. He measured nine feet and
four inches and weighed 254 pounds.
Miss Caughran lives at Sioux Falls,
and her alligator will be the envy of
many friends when she returns from
her southern trip.

AGED RESIDENT OF INDIAN FORD DEAD

Mrs. Laura Hyatt Passed Away at
Home of Daughter in
Pardeeville.

Mrs. Laura L. Hyatt died March
31 in Pardeeville at the home of her
daughter, Mrs. Joseph Hayes. The
news came as a shock to friends at
Indian Ford. Mrs. Hyatt had been
spending the winter with her daugh-
ter but expected to return to her
home at Indian Ford as soon as the
weather became settled. A severe
cold, together with her advanced age,
was the cause of her sudden demise.
The body, accompanied by Mr. and
Mrs. Hayes, was received at Edgerton
Monday. The funeral was held
from the home April 3 at one-thirty
p. m., the service being conducted by
Rev. Mr. Richardson. At her own
request the dear old lady was dressed
in white, the custom of the
Quakers. That religious influence had
surrounded her early life and was
never quite outgrown. Laura Lou-
isa Leavens Hyatt was born in New
York state Nov. 8, 1818, but when she

THE LATE MRS. LAURA L. HYATT AND HER AGED HUSBAND
was only a child her father moved to
Canada. At the age of seventeen
she was married to Elijah Hyatt.
The first years of their married
life were spent in Canada. From
Canada they moved first to New York
state and not long after, imbued with
the pioneer spirit, came to Wisconsin
in 1852 with a family of four chil-
dren. With the exception of a few
years spent near Montello, Wis., they
had since lived in Rock county, where
they owned the farm known of late
years as the Horton place, but now
belonging to Wm. Wille. The last
twenty years they had resided in a
little home of their own at Indian
Ford. Last June they celebrated their
seventieth wedding anniversary. Na-
tural, the oldest of their five children,
lives in Canada; Elijah, Jr., died
some years ago; Prudence, the wife
of Wm. Squire, died in California; and
Martha, the youngest, died in child-
hood. Mary, the only surviving daugh-
ter, has been back and forth spend-
ing her time between her own home
and helping her mother care for
her aged father during his last
illness until his death, which occurred
seven months ago. Two years ago
both parents spent the winter months
with her and this year the mother,
Mrs. Hyatt, accompanied every act of
kindness and care bestowed upon her,
but longed for the old home and
friends in Rock county and planned
to return, although it was evident
that she would never be able to care
for herself and her house again. It is
uncommon to find two old people both
living to such an advanced age and
able to care for themselves until their
last illness.

Mrs. Hyatt has been an angel of
mercy in many a home, bringing hope
to the sick and helpless and prolong-
ing the life of many a discouraged
sufferer by her practical and faithful
ministrations. While Mrs. Hyatt was
engaged in nursing Dr. Shepherd of
Edgerton became interested in these
remarkable old people and when the
day came that they were unable to
work for others Dr. Shepherd came
to the front and financial arrange-
ments were made which had enabled
them to live in their own home with-
out fear of want or lack of medical
attendance. The kindness, the cour-
tesy and tact shown by the doctor to
this aged couple is as rare as it is
beautiful and it would be impossible
for words to express the gratitude
and appreciation felt toward him by
the recipients of these favors so
willingly and so freely given.

The daughter in whose family she
received the kindest and tenderest
care, the son in Canada and the rela-
tives in California, have ever kept
them in mind and cheered them by
their visits and by letters which of-
ten contained financial help and prac-
tical gifts. Her life work is done.
The call to come up higher has been
answered, the last resting place was
made beautiful, the walls covered with
white and trimmed with flowers and
evergreen and the grave covered
with Easter flowers, the expression of
love from friends who had known her
from their childhood. "It is better
farther on."

Funeral services were con-
ducted at the home on Thursday af-
ternoon.

PRESENTS A NEW THEORY OF COAL

J. P. ABLEE ADVANCES THE OIL
FORMATION DOCTRINE.

HAS INTERESTING SPECIMEN
Picks Up Hunk of Soft Coal with
Strango Fossil Appearances
on Tracks.

J. P. Ablee, who fishes for pearls
in the Mississippi during the summer
and spends his winters in Janesville
studying scientific questions, has dis-
covered a new phenomena in coal
formation. That is, Mr. Ablee has
picked up a piece of soft coal on the
road, the hunk a perfect, apparent-
fossil, formation resembling the screw-
lines of a piece of shaffing. Mr. Ab-
lee has spent many years of his life
in the coal and oil regions and is
thoroughly familiar with strange
freaks found in the coal. The hunk
of the carbon with the latest fresh
formation shows clearly in Mr. Ab-
lee's mind, that it was imprinted in
the coal when it was forming and
has left its imprint there. Mr. Ab-
lee, by the way, has a very original
idea as to the formation of coal. He
differs from the scientists, who teach
us that coal is merely of vegetable
origin, and believes that coal is form-
ed by the solidification of oil. In
other words he says that the differ-
ent grades of coal have been formed
in ages past by the oil flowing from
the natural wells onto the surface of
the ground and drying up, another
theory found in coal fields. He ex-
plains the presence of "slag" in the
fields as being clumps of dust that
settled on the oil as it was solidify-
ing and before the next layer of oil
arrived. Imprints of leaves of ani-
mals and other matters found in coal
fields he explains as having fallen
upon the soft oil partially solidified
and then covered by another deposit.
This, he believes, is an argument
against the theory of coal being of
vegetable formation, as these leaves
and other matters would have been
lost sight of in the gradual decay of
the vegetable matter instead of hav-
ing been preserved for centuries. Mr.
Ablee has seen oil flowing onto the
ground near wells from a hard sub-
stance that was brittle and could be
broken, which he thinks, is another
indication his theory is correct. He
explains the bituminous and anthrac-
ite coal formations as being com-
posed of the different grades of oil.
He does not advance this theory as
his own, but says that it is common
among workers in the coal fields. (Mr.
Ablee is a Grant county product, who
early began a roving life. He went
to "Bleeding Kansas" in 1859, saw
the contest for slavery and anti-slav-
ery being waged there, was in St.
Joseph, Missouri, during the Lincoln
campaign of "Sixty" and not being a
resident of the state could only see
Lincoln tickets. He was forced to
leave St. Joe, because of his anti-
slavery sentiment and went to Iowa
where he was living when the war of
the rebellion broke out. He enlisted
in the 4th Iowa and served his three
years and two months extra for good
measure in Grant and Sherman's army
of the west. He was wounded in the
first attack on Vicksburg and has a
"minnie" bullet which he carries with
him to show as the one which laid
him low. His war experience is in-
teresting and replete with incidents
of narrow escapes and the scenes so
common to all old soldiers. Mr. Ab-
lee now receives a pension of eight
dollars a month. He is fond of col-
lecting curious articles and in his
summer work on the Mississippi finds
time to explore the Indian mounds
which line the banks near Prairie du
Chien. Last fall on his return to
Janesville he had with him, curious
"beads" of Indian workmanship, pins
made by hand, army buttons of the
first part of the last century, bits of
broken pottery and other interesting
relics that he had picked up or dug
up in the mounds. He has a little
lantern which he uses in his fishing
for clams and makes a good living
out of the nearby lands. He will
leave for his summer work next
week and expects this summer to be a
banner year, as he has several clam
bets not hitherto searched marked
down for his summer's work.)

HESPER

HAMLIN GARLAND

COPYRIGHT, 1905, BY HAMLIN GARLAND.

"When he awoke, Don was standing over him smiling. The council is on. Dress and come down to the library. It was right about the indignant citizens; they were all for arresting you. They understand that you are a part of this man's life, and I was obliged to put forth all my influence to save you."

"This did not appeal to Raymond's sense of humor. 'It's just that blind sort of bucking at the wrong minute that tangles things up. Munro is the one regulative force up there, and yet you fellows want to kill him off.'"

"As Raymond stepped out into the hall and met him. 'Good-morning,' she said, and her fine hand closed strongly on his. 'Don has told me of your mission. I hope you'll succeed.' She turned to Barnett. 'Do you know where Louis is?'"

"No. Haven't you seen him this morning?"

"No, and I'm afraid he has gone back to Skytown. The hostler said he took his pony and rode away about 8 o'clock. Her anxiety for her brother showed in the otherwise clear serenity of her eyes like a cloud in a summer sky."

"I am afraid to have him there when you are away," she said to Raymond. "Can you keep Louis out of it?"

"I think so."

"You must be sure or I will go back. I could keep him out of it, to take care of me. Is Mrs. Kelly afraid?"

"Not a bit. I tried to induce her to come down here, but she refuses to."

"I came here to tell you that you are mistaken."

"make any change in her life. Even if the invaders storm the fort the Kelly household is out of range."

"They really have a fort, then?"

"I shouldn't have said that. I meant the hill."

"You said fort."

"I am here as a messenger of peace, not to betray military secrets," he replied, with a smile in his eyes. "And I must be careful even with you."

"What do you hope to do?"

"I hope to persuade the authorities here not to send these deputies up the canyon. I want to arrange an armistice—that is, a wait of a couple of weeks in which to meet and consider ways and means."

"She checked herself. 'You must go. They are waiting for you below. We will see you at luncheon.'"

"Yes, I may not start till dark tonight."

"You have my best wishes."

The men assembled in the library were a grim lot. Mackay was no less square jawed than Banker Moore, and the squat, coarse featured, scowling sheriff resembled a bulldog. Don Barnett alone seemed not a part of the general massing of prejudice and passion, and yet he was one of the most pitiless of them all. The mayor, a large man with a plump and smiling face, seemed the only man likely to side with a peace messenger.

After general introductions Raymond took a seat and at Don's request reiterated his appeal for a stay of the advancing hostiles.

"You think they'll fight?" asked the mayor.

"I know they'll fight."

"How many men does this man Munro—"

asked the mayor.

"That I cannot answer. He has the confidence of the committee."

"I don't suppose it will do any good to ask about the buried dynamite and the fortifications on the hill?"

"None whatever."

"Then what did you hope to accomplish?"

Raymond fired a little. "I came here to tell you that if you think you can overawe this camp with 1,000 men or 2,000 men you are mistaken. Since this trouble began hundreds of the most reckless and dangerous characters in the west have flocked to Sky in support of the miners. These recruits are accustomed to the sound of guns. Furthermore, Bozlo, itself, in fact, the whole western end of the county is tired of the domination of the eastern miners. Your party is in a minority in the state, and you cannot safely look for support to the militia. Therefore, for all these reasons and because I know Munro and his men, I advise, I plead with you, to stay where you are. There is one other consideration: The party which I represent—the free miners and prospectors like Kelly and Bingham and Reese—have stood aside from this quarrel. We have had no share in it. We have kept our men out of it, but if you march against the hill, many of our fellows will join Munro. And I want to tell you gentlemen, that one of these free miners—these rangers of the hills—is more dangerous than twenty little dagoes. A hundred of them would stand off 500 of your men."

His deep earnestness impressed them all, and a silence followed his last words. At last Don said:

"Gentlemen, Raymond is not merely an acquaintance; he was in my employ for some years, and he is my friend. I am forced to give his words great weight. I suggest that we try to arrange a meeting between the miners and ourselves and the governor and reach some peaceful solution."

"The sheriff leaped to his feet. 'That would make us the laughingstock of the whole country.'"

"Better be that than a melancholy example of foolish pride and obstinacy," Raymond interjected.

At this point the argument stuck. Mackay, the county attorney, and the sheriff stood for war; the mayor and Barnett, being for the moment under the power of Raymond's earnest glance, pleaded rather spiritlessly for at least a stay in proceedings.

"I think it all a waste of time," said Mackay. "I think we ought to hold this man here and march at once. He is known to be a friend of Munro. If we allow him to go back he will join form."

Raymond smiled grimly. "My services as a spy are not needed. Every movement you make will be watched by a hundred eyes, and back of the eyes will be a gun."

The mayor rose. "Well, gentlemen, I don't see that we can decide anything here. We have Mr. Raymond's opinion that our attack on the hill will result in disaster. The affair is confident he can win practically without a struggle. This is no place to take a vote on so momentous a subject."

Here he looked at his watch. "And it is lunchtime. I suggest that we go to luncheon and meet at 3 o'clock in the committee room."

After they were well out of the house Barnett said: "You see how it is. They are fixable."

"May I come in?" asked Mrs. Barnett at the door. "Luncheon is waiting."

"Certainly," said Don. "The council is over."

"You were all very quiet. I expected to hear loud voices and the sound of blows." She came toward Raymond, her face sweet with kindly interest.

"How do you do, Robert? It's good to see you. How well you look." As they moved toward the door she added in a low voice, "I want to talk with you about—you know who."

She put him at her left hand and Ann next him, an arrangement which pleased him. The table was filled, as usual, with people on their way to California, and Raymond felt himself to be the object of comment both above and below board, and it irritated him a little.

"This is a long way from Sky," he said to Ann as his eyes absorbed the shining, flower-decked table and its tasteful service. "You left just in time. It is white with snow up there today, and bleak and cold. Have you had no word of Louis?"

"No news whatever. I am sure he is on his way up to you."

"I am starting back at once, and I will take care of him. Trust him to me."

When at last the hostess rose, the young miner's heart contracted with a sudden realization that his hour of grace was over and that the time had come for his return to the stern realities of life.

In the hall he extended his hand in fixed resolution to Mrs. Barnett.

"Goodby. It's hard to leave you and this glorious home."

"Must you go today?"

"Yes, I must hurry back. Kelly needs me, and then there is Louis."

"Well, if you must—But do come again, Rob. Don't mind who is here; come to see us. It is always good to have you here."

"As soon as this strike is over I will do so," he said very earnestly.

Don followed him to his room, and while resuming his big boots Raymond said: "Don't let that sheriff head me off. Keep him for a couple of hours, and I'll be out of his reach."

"Don't worry about the sheriff, old man, and throw your whole weight against Munro's policy of resistance."

"I've done that from the first."

"And was waiting to see him as he came out into the upper hall. It was her first deliberate motion toward him, but her face gave him no hint of her quickened pulses as she said: 'Give Nora my love, and great-grand old Matt for me, won't you? I feel as if I ought to go back.'"

"You must not, much as we all need you. This is no time for you to be there. I wish Nora would come down."

"I wish she would; and please let me know instantly that Louis is safe with you."

"I will do so. When do you go east?"

"Not till spring."

"Then I may see you again." His words formed a declaration as well as a question, and his glance meant more than his tone.

Her eyes fell. "Perhaps," and she added, with an upward glance, "If you visit us soon."

"That I will do. Goodby."

"Goodby, and please don't be reckless."

FOOTLIGHT FLASHES

Stetson's "Uncle Tom's Cabin" when the time-honored procession of Topsy, Marks, Uncle Tom and Little Eva will march right into the hearts of the people, despite the fact that for over half a century the play has engaged the attention of many audiences, and although some of the grandfathers may be there with their grandchildren, there will be no less heartiness in their applause than when years ago they first saw it. The Stetson Company's scenery, specialties and accessories will be found to be the greatest and best numerically in America.

CONSCIENCE CLOTHING

The foundation of a permanent fitting garment is in its shape-retaining qualities and the secret lies in the proper sponging of the cloth to avoid shrinking; not merely a wet cloth and a hot iron, but scientifically sponged by practical men—by means of the CLOTHCRAFT patent process. This is one reason for the success of CLOTHCRAFT clothing—now add to this the genius of the designer of CLOTHCRAFT CLOTHES; the personal supervision by experts, the non-shrinkable body canvas, the vital insides, etc., and there you have the perfection of form-fitting properties that have universally established CLOTHCRAFT apparel as indisputably among the best-fashioned garments that ever graced the form of man.

Texture, pattern or trimmings be they ever so standard have neither the elements of fashion or merit without these perfect-fitting essentials. It is the fit that distinguishes your clothes from the general every day kind.

You can no more expect clothing satisfaction without it, than you can look for good bread from bad flour. Be sure you're safe, ask for CLOTHCRAFT CLOTHES and you ask for just what you're looking for.

By the action of the Milwaukee common council in granting the West Shore Telephone company a franchise in the Cream City Janesville will be directly benefited. Don Farnsworth, for some time a resident of this city and now in the bond business in Chicago, and F. L. Bills, also a former resident of Janesville, have been the two men instrumental in securing the franchise. Richard Valentine and other stockholders in the Rock County Telephone company are also interested in the new Milwaukee concern. In speaking of the matter this morning Mr. Valentine said:

"The passage of this ordinance means that Janesville will have toll connections with Milwaukee over an independent telephone line inside of two years. It will take that time to build the exchange in Milwaukee. Our lines now run to Racine, within twenty miles of Milwaukee, and they will be extended inside the city limits as soon as possible. I also expect the St. Paul and Minneapolis independent company, which now has toll connections with La Crosse, will extend their lines across the state to connect in Milwaukee. It means a great future for the independent people and the public at large."

"What the Franchise Requires." The measure granted by the Milwaukee council is for thirty years, giving the city the right to purchase after fifteen years, providing three years' notice has been given. The company must have at least 5,000 instruments installed within three years, and within six months from this time it must install lines to city offices and give service free of charge.

All State Lines. It is required to connect with all state independent lines which come to the limits of the city and demand connection. With the acceptance of the company, which must come within sixty days, a bond of \$25,000 must be filed. If work is not begun in sixty days after acceptance this is forfeited. The sum of \$100,000 must be expended six months after work is begun.

CUSTOMERS PLAYED THE SLOT MACHINE

At Andrew Oleson's Place in Afton, According to Charge Preferred Against Him—Brought Into Court.

Andrew Oleson, proprietor of a saloon at Afton, was brought into municipal court late yesterday afternoon to answer to the charge of operating a nickel-in-the-slot machine on his premises. Reports that the law was being violated in this respect reached District Attorney J. L. Fisher's office some time ago and he sent a warning to the proprietor. It is alleged that the latter paid no attention to the message and that he has brazenly and openly permitted minors as well as men to squander their money on the contrivance. Oleson waived examination, pleaded "not guilty" and his trial was set for Wednesday. By consent, however, it will probably be taken up tomorrow morning. The penalty for such an infraction of the law as is alleged in this case is a fine of \$100.

LOCAL LACONICS.

Won His Fight: Johnny Thompson, who was one of the boxers at the athletic tournament given by the Eagles in January, knocked out Otto Seigel at New Orleans last night in eight rounds. It will be remembered that Thompson met Herick here and the decision was given the latter on a foul.

Out of Madison Hospital: Arthur P. Bennett returned home last evening from Madison, where he has been confined to the hospital for the past two weeks.

Children to Parade: Staff Captain Storey of Chicago, who has been singing at the Salvation Army meetings recently, wants 100 boys and girls to march at four o'clock Saturday afternoon. They are asked to come to the hall early and get a flag and a bun. Capt. Fleming says that this is a new departure in the Sunday school work and that a good time will be enjoyed by all the young people who take part.

Interesting Rumor Denied: It was reported on the streets today that the Janesville Contracting Co. was seriously considering the project of purchasing the Janesville street railway system. One of the officials of the first-named concern, when interviewed, said that the report was without foundation.

Lottie Baldwin Association: Articles of organization of the Lottie Baldwin Association of Milton Junction, incorporated without capital to conduct and maintain charitable institutions and buy and sell real estate, were filed with the register of deeds yesterday. The incorporators are: Allen B. West, Albert S. Maxson, Lewis A. Platts, Alfred D. Bliss, and Theo. J. Van Horn. They are to constitute the membership of the association until regular session of the Seventh Day Baptist general conference in August, 1906, and their first meeting for organization and the election of officers is to be held in Milton Junction on May 5.

NAVIGATION ON RIVER OPENED

LAUNCH MADE TRIP UP THE ROCK THIS MORNING.

SPORT WILL BE POPULAR

Advent of Houseboats and Building of Indian Ford Ferry Are New Features.

"The Canfield," a pretty gasoline launch owned by J. C. Harlow of the Harlow Canopy Co., was taken to the waters of the placid Rock this morning, on which it has plied for the past fourteen years, for the first trip of the season. "The Canfield" made its sail to "Summer-days" cottage today in charge of J. C. Harlow, on whom the many boat-owners on the river have conferred the title of "Commodore." Mr. Harlow is secretary of the Janesville Boat club and a veteran of a quarter of a century in the U. S. mail service.

Navigation Opened.

The initial trip of "The Canfield" marks the opening of the launch season. It is, of course, too cool to make moonlight riding pleasurable, but on the sunny afternoons much enjoyment can now be found on the water. It will not be long before every launch will be aloft again and their owners and friends will be having up-the-river parties. Row-boats will also be as numerous as in former years and no doubt the beauties of the Rock and the scenery on its shores will be appreciated more than ever.

Two New Features.

There are two new features in boat-riding this year. One is the Indian Ford Transportation company and the other is two houseboats, the first on the river. The Indian Ford railway is soon to be built and then it will be possible to go by launch from Port Atkinson to Janesville, via Lake Koshkonong. The road will be but a little over a hundred feet long, the rolling stock will consist of one double-truck and the motive power will be a hand windlass. This Transportation company will be able to transfer a launch from the river below the Indian Ford dam to the water above.

More Houseboats.

Two Janesville men now have houseboats on the river. They are Bert Van Houten and W. J. Lawrence. Mr. Van Houten's will soon be furnished and ready for use, while there is some work yet to be done by the other. The two vessels were launched early this week and the Van Houten boat was christened "The Shamrock." It would be well to explain that this was not named after any of Thomas Lipton's cup challengers, as its speed is estimated at three miles an hour. Several other residents of the city have talked with George Barriage, the builder of the boats, and it is probable that another summer will see a small fleet of these vessels on the river.

WASBADLY BURNED BY RED HOT IRON

John Dugan Was Victim of Accident at New Doty Works Yesterday—Eyesight May Be Injured.

Melted iron blowing out of a mold in the foundry of the New Doty Works on North Main street yesterday morning, terribly burned John Dugan, one of the workmen about the face, back, chest, and limbs. Particles of red hot iron also penetrated the eyeballs and it will not be known for some days whether or not the sight will be permanently injured. Prompt assistance was rendered by companions and the injured man was removed to the home of his parents on Glen street, where Dr. Fred Sutherland was called to attend him.

Dived Into Gutter: August Dalie, steeped in some choice brand of "squirrel" and stumbling along North Main street at half past one o'clock this afternoon, made a sudden dive for the gutter in front of the Empire hotel and lay there, curled up in the mud and ooze, until two kind-hearted men dragged him up onto the sidewalk and called up the police station. Officer Champion, flagged Winslow's delivery wagon and toted August to the city lock-up.

Spring Showing Now Complete

Easter comes on Sunday, April 15th, this year—somewhat later than the date upon which it usually falls. It is the accepted time for "springing" your new clothes—but weather conditions have urged a great many men to earlier clothes purchases.

We are now completely stocked with new Spring Styles. This is the season when chilly days alternate with warm ones and necessitate wearing the useful Top Coat.

It will be well worth your while to form your idea of Overcoat PERFECTION from our SINCERITY styles.

Avoid "Doctored" Clothes

Damp weather wilts out the hot Flat-Iron work found in most clothes. When you are buying your Spring Garments, it is a good plan to remember to select clothes that are guaranteed not to lose their shape the first damp day you wear them.

Our SINCERITY CLOTHES are hand-made, hand-revised, and not "doctored" by the hot Flat-Iron. We would like to have you come in and ask us for a suit of SINCERITY CLOTHES or a SINCERITY Overcoat. We will point out the difference and added value that comes from "sincere" tailoring, good materials, and honest Hand Needle-Work. It always pays to buy the best.
